

Implementation Plan for React Calculator Enhancement

Feature 1: Calculation History

Detail	Description
User Story	Users want to view past calculations.
Technical Requirements	- Add history state- Store expressions/results- Clear button
Files Modified	App.js, calculate.js
Challenges	State persistence, responsive UI layout

Feature 2: Keyboard Support

Detail	Description
User Story	Users want to use keyboard input.
Technical Requirements	- Event listeners- Key mappings- Visual feedback
Files Modified	App.js
Challenges	Handling invalid keys, focus management

Feature 3: Dark Mode

Detail	Description
User Story	Users want a dark mode for low-light environments.
Technical Requirements	- Theme toggle- CSS variables- localStorage persistence
Files Modified	App.js, App.css, ToggleButton.js
Challenges	Ensuring theme consistency across components
